Efficient Media Recovery System

To optimize your process and reduce your overall cost

Our sandblast cabinets are delivered with a **tunable cyclonic media separator** that uses the centrifugal force to separate dust and fine particles (paint chip, rust, scattered media, etc.) from abrasive media still in perfect working condition to be reused again.

Our unique design can process angular and spherical **abrasive media of various materials, granulometries, and bulk densities**. Its stand-alone support can accommodate different floor layouts and arrangements.

Built to Last

Thanks to its heavy-duty construction and modular system design

Standard models are fabricated with 12-gauge bolted and welded metal panels (other gauges available upon request) and they are delivered with **robust components that are made to last for decades.**

Our cleverly designed modular system allows you to **easily implement new features and components** as your business grows and your ergonomic or process requirements become more sophisticated.

Kresco's sandblast cabinets and dust collectors are backed by the industry's longest **two-year industrial warranty.**
