

CDC SERIES

DUST COLLECTORS

MODELS CDC600, CDC900, CDC1200, AND CDC1800

Introducing **Kresco's** CDC Series of cartridge Dust Collectors designed for industrial sandblasting applications. Providing the most reliable dust-free environment for heavy-duty sandblast cabinet operations and automated sandblasting systems.

Can be paired with your existing sandblast cabinet as a stand-alone or combined with a Kresco Abrasive Recovery System to optimize your sandblasting process while reducing your overall costs.

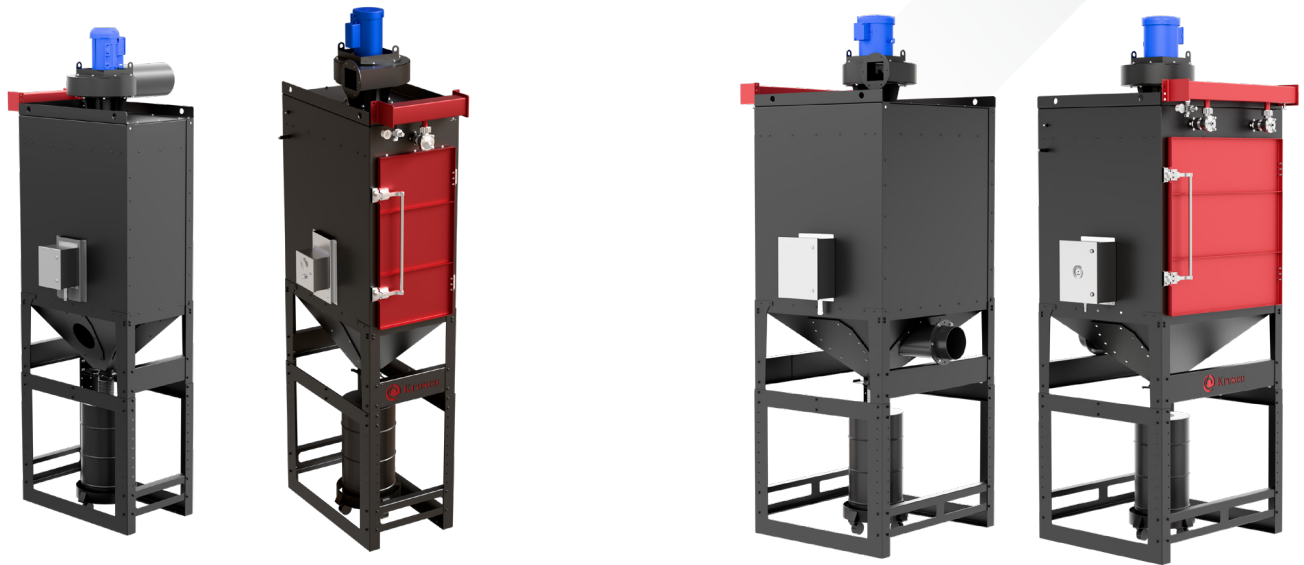

Our dust collectors integrate the latest technologies to provide peace of mind operation and maintenance:

- Self-cleaning, reversed pulse cleaning system with automated timer and clogging indicator
- Cartridge filters that capture 99% of all particles down to one (1) micron or larger
- Ease of access to cartridge filter for replacement
- Efficient motor exhausting system available up to 1,800 CFM
- Can be operated on suction cabinet, pressure cabinet, and automated systems
- Supplied with a dust collection drum
- Available in 240 V, 380 V, 480 V, and 600 V

Optional Features:

- HEPA filter - able to capture 99.7% of all particles down to 0.3 microns or larger
- Horizontal or vertical muffler in compliance with OSHA noise level standard
- Dust collection drum trolley
