

# CDC SERIES

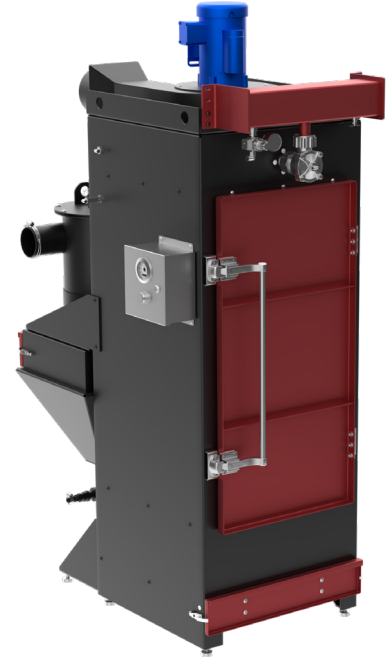

## DUST COLLECTORS

### MODEL CDC400

Introducing world's smallest footprint sandblast cabinet dust collector and media reclaimer combo, by **Kresco**.

The CDC400 integrates a powerful 400 CFM cartridge dust collector with a tunable cyclonic separator that separates abrasive media in good condition from dust and process byproducts (paint chips, rust, etc).

It is designed for light-industrial, commercial, and automotive aftermarket sandblasting applications.

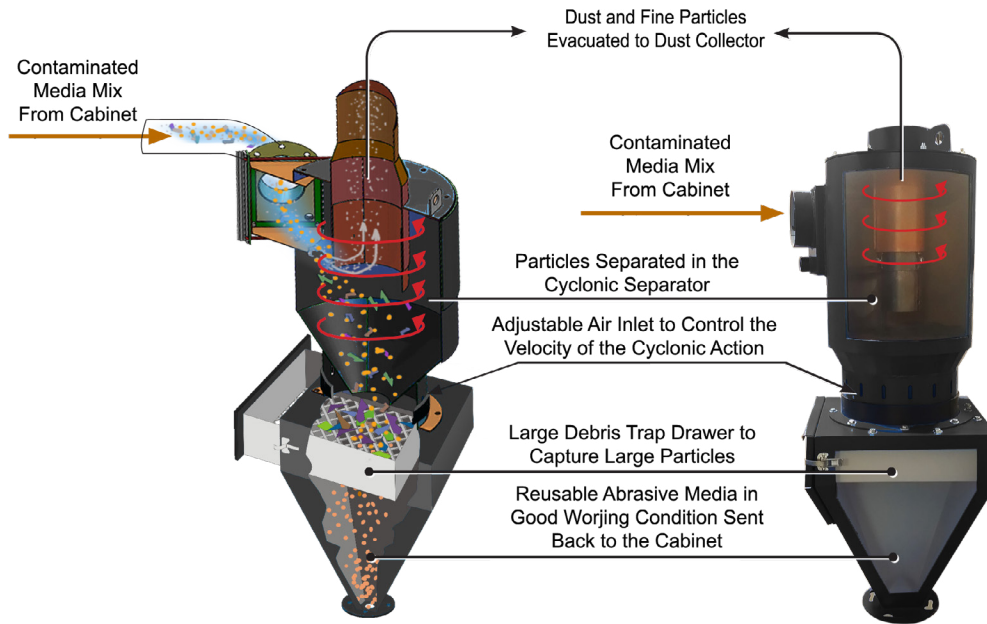

Our dust collectors integrate the latest technologies to provide peace of mind operation and maintenance:

- Reversed pulse system with simple push button and clogging indicator
- Cartridge filters that capture 99% of all particles down to one (1) micron or larger
- Ease of access to cartridge filter for replacement
- Efficient 400 CFM motor exhausting system
- Designed for suction sandblast cabinet
- Dust collection drawer at the bottom
- Electrical requirements: 120V

## ABRASIVE MEDIA RECOVERY SYSTEM

The Cyclonic Separator, also known as the Abrasive Media Reclaimer, cleans the abrasive media circulating through your Sandblast Cabinet by separating improperly sized particulates from the abrasive media mix using a centrifugal motion.

Specifications	CDC400-RSB10
<b>Dust Collector</b>	
Motor (HP)	3/4 HP
Fan (CFM)	400 CFM
Number of Cartridge	1
Filter Capacity*	318 sq.ft.
Overall Dimension (L x W x H)	48-1/2" x 27" x 80-1/2"
Weight (lb)	750 lb
<b>Cyclonic Separator</b>	
Body Diameter	10"
Inlet Diameter	4"
Outlet Diameter	4"

\* Provided with Kresco's standard MERV 11 pleated lock cartridge media
